

Disinfection cabinets

- In AISI 304L stainless steel
- Single phase 230 V - 50 Hz / 60 Hz
- Germicidal lamp: lifetime 8000 h
- Timer: 120 min.
- Safety cut out when doors opened
- Resistance to solids and water: IP24
- Inclined top surface: helps to comply with hygien standards

Ergonomics: Handle made of thermohardening plastic, fixed to the door using a cross headed bolt, for a better grip and an excellent hold on the door

Hygiene: Completely smooth, sloping top

Safety: Crushed folds - Integral pan to protect the utensils from anything sticking out
