22-LITRE SINGLE-WELL ELECTRIC FRYER WITH ELECTRONIC CONTROL.

Single-well electronic fryer with high productivity, constructed in AISI 304 stainless steel. 20/10 thick stainless steel top without flue apertures. Deep drawn cooking well in AISI 304 stainless steel, with curved internal corners. 22-litre well capacity. Wells with wide front expansion zone for oil and foam and extended cold zone for collection of food particles. Heating by means of a sheathed immersion-type heating element in AISI 304 stainless steel. The element can be rotated by over 90° by means of the lifting hook, to facilitate well cleaning. Power adjustment for optimisation of heating and efficiency. MELTING cycle. Automatic cooking function for guaranteeing high quality fried fare. Thanks to 30 programs, the operator can easily select the type, quantity and holding temperature of product to be fried. The electronic control automatically adapts the cooking cycle based on the selection made. Control panel with 7" high-resolution touchscreen display with electronic control board for management of the cooking temperature from 0 to 185°C with a precision of $\pm 1^\circ\text{C}$ for frying programs, of HACCP alarms, the tank cleaning cycle, the preheating function and holding at 100°C, and system diagnostics. Safety thermostat with manual reset. Equipped with: 1 mesh filter in chrome-plated steel for resting fryer baskets on; 2 half-baskets for frying in chrome-plated steel with front handle in heatproof material; 1 well lid; 1 extension for front drainage of well. Height adjustable feet in stainless steel. IPX5 protection rating.
